SVOM (Long March 2C) Launch

Space agency/country: China Aerospace Science and Technology Corporation

Mission: *Space Variable Objects Monitor (SVOM)*

On 22 June 2024 the China Aerospace Science and Technology Corporation launched a *Long March 2C* rocket from the Xichang Satellite Launch Center, China, carrying the SVOM satellite. SVOM is a Chinese/French collaboration involving the China National Space Administration (CNSA) and the Centre National d'Études Spatiales (CNES). The aim of this mission is to study the explosions of massive stars by analysing the resulting gamma-ray bursts.
