WorldView Legion 3 & 4

Space agency/country: SpaceX
Mission: *WorldView Legion 3 and 4 (Falcon 9 Block 5)*

On 15 August 2024, SpaceX launched its *WorldView Legion 3* and *4* satellites from Cape Canaveral complex, Florida, USA. This launch is part of the *Falcon 9 Block 5* mission, with WorldView rockets being Earth observation satellites built and operated by Maxar Technologies. SpaceX is planning on sending into orbit six satellites of this constellation in both polar and mid-inclination orbits.
