Sentinel-1C Vega-C Launch

Space agency/country: Arianespace
Mission: *Sentinel-1C*

On 6 December 2024, the *Sentinel-1C* rocket was launched from the Guiana Space Centre, French Guiana. This spacecraft is the third launch of a *Sentinel-1C* mission, and will ensure data continuity for the many services offered by the European Union's Earth observation programme. In addition, it will deliver radar imagery to monitor the Earth's changing environment.
