TRACERS Launch

Space agency/country: SpaceX
Mission: *TRACERS*

On 24 July 2025, SpaceX successfully launched the *TRACERS* mission using a Falcon 9 rocket from Space Launch Complex 4E (California, USA). The *TRACERS* (Tandem Reconnection and Cusp Electrodynamics Reconnaissance Satellites) mission is composed of two identical satellites operating in tandem as they orbit the Earth and is designed to investigate magnetic reconnection and its impact on our planet's atmosphere.
