ISSI–BJ WORKING GROUP PROPOSAL TEMPLATE

(Your proposal should not exceed 2 pages)

ISSI–BJ Working Groups are established to advance a topic of applied or technical nature, resulting in a deliverable that has legacy value for a wider community. They typically lead to a volume of the ISSI [Scientific Report Series](#) (SR, Springer). The book can also be published as open access.

1. Title of your Working Group:

2. Names and affiliation information of the main Working Group coordinators, and of all proposed Working Group members (we encourage a gender balance):

3. Working group objectives, scientific relevance, timeliness, multi- and interdisciplinarity, ISSI–BJ added value:

4. Book information: (What is the expected number of chapters? To whom is the book addressed? Provide at least four reasons why your book is unique compared with competing literature. Also explain what makes it worth reading?)

5. Proposed first Working Group meeting dates (indicative):
