## ISSI–BJ WORKSHOP PROPOSAL TEMPLATE

*(Your proposal should not exceed 2 pages)*

ISSI–BJ Workshops are supposed to establish the status quo of our knowledge and identify key open questions in a scientific field of broad interest (“Grand Challenges”). An important outcome of ISSI–BJ Workshops is the production of a series of peer-reviewed review papers, published both as an issue of [Space Science Reviews](#) (SSRv), as well as a hardcover book volume of the [Space Science Series of ISSI](#) (SSSI, Springer). ISSI–BJ aims for all SSRv papers to have open access status.

1. Title of your Workshop:

2. Names and affiliations of the 5–6 confirmed conveners (we encourage a gender balance):

3. Workshop objectives, scientific relevance, timeliness, multi- and interdisciplinarity, ISSI–BJ added value:

4. Book information: (What is the expected number of chapters? To whom is the book addressed? Provide at least four reasons why your book is unique compared with competing literature. Also explain what makes it worth reading?)

5. Proposed Workshop dates (indicative):
